Consult WANTS in To-day's Bulletin**Appropriation for Canal**
Reduced to Ten Millions

Washington, Jan. 26.—The House Committee on Interstate and Foreign Commerce today reconsidered the Nicaragua canal bill, which had been reported with an appropriation of \$140,000,000, and changed the appropriation section so as to make \$10,000,000 available, with authority to contract for the entire excavation and completion of the canal at a total cost not exceeding \$140,000,000.

Before this action was taken Hepburn, chairman of the committee, said that is all the members of the committee were anxious for the success of the bill it was well to consider some objections which had been raised. He had heard several objections on the ground that the whole \$140,000,000 was appropriated now and three of four gentlemen had said they would not support the bill if the entire sum were appropriated now, but would support it if only a portion were made available at once to begin the work.

Corliss of Michigan thereupon offered the following new section, which was adopted:

Section 6. That the sum of \$10,000,000 is hereby appropriated out of any money in the Treasury not otherwise appropriated, toward the project here-in contemplated, and the Secretary of War is further hereby authorized to enter into a contract or contracts for materials and work that may be deemed necessary for the proper excavation, construction, defense and completion of said canal, to be paid for as appropriations may from time to time be hereafter made, not to exceed in the aggregate \$140,000,000.

Mr. Fletcher of Minnesota asked: "When you get that canal half built for \$140,000,000 what will you do with the other half?"

Corliss answered that the highest estimate of cost thus far made was \$133,000,000. Hepburn added that in the amended form the bill simply applied the contract system and limited the aggregate to \$140,000,000. In the amended form the bill was ordered reported.

The Pacific cable bill was taken up and General Swayne of New York spoke in favor of private construction and operation of the cable lines as against Government ownership.
